Dear NLLEA Members,

In an effort to assist Alcohol Law Enforcement (ALE) agencies in navigating their enforcement and regulatory responsibilities in the midst of the COVID-19 crisis, myself and the entire NLLEA Executive Board would like to offer any assistance we can through the expertise and guidance of our membership.

The NLLEA recognizes that each ALE agency is dealing with this situation to a different extent with their own federal, state, and local mandates. If you have questions, need guidance or just want information on how another state may be handling a situation or circumstance that has resulted from this crisis, or would like to share information that has been helpful to your agency we would like to provide a hub for you to be able to give and/or take away helpful information.

The NLLEA is here to support you and your agency in navigating the ever-changing and uncertainty of our current situation and will continually monitor information as it is received and share it with our ALE membership. Watch your email for our regular resource updates and information sharing.

If you have a question or would like to share information please send it to our Executive Director, Carrie Christofes at carrie.christofes@nllea.org.

Best regards,

Greg Croft
President
